

Superfy Release Notes
Version 2.1
18th September 2024

Superfy 2.1 brings some enhancements to our new 2.0 look and feel. As usual, everything we've done has been through customer feedback and engagement.

Official Release Note v2.1			
Module	Menu	Category	Summary
Subscription Types	All	Enhancement	<p>Say Hello to Managed Containers, QR Containers and Connected Containers and only pay for what you use with our new subscription types.</p> <p>Existing Customers with Smart Assets now have Connected Containers. Simple Pinned Assets are now Managed Containers.</p>
QR Collection Requests	Collections	New!	<p>Create a printable QR code for your containers. Now your customers can just scan the QR code to request a collection!</p> <p>Customisable QR collections portal, also reports maintenance requests, damage, graffiti etc.</p>
Enhanced Vehicle Data and Routing	Collections	New!	<p>Never risk a low bridge strike again! Enter the dimensions of your vehicles and our routing algorithm will automatically avoid low bridges or tunnels.</p> <p>**This is accessible in countries where the data is available.</p>
Reported Bugs	All	Fixes	<p>We listen to our customers all the time and when we find something isn't quite right, we fix it in the very next release!</p>
Customer Requests	All	New!	<p>New feature requests from customers that we think are a great idea.</p>
