

Superfy Release Notes  
Version 2.3  
May 2025

Superfy 2.3 offers users significant enhancements within the platform, based off interaction and engagement with our customer base. Notable changes include an improved approach to the CRM module and an overall enhancement to the look and feel of both the platform and the app.

| Official Release Note v2.3 |                    |             |                                                                                                                                                                                                                                                                                                                  |
|----------------------------|--------------------|-------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Module                     | Menu               | Category    | Summary                                                                                                                                                                                                                                                                                                          |
